Last Updated Tuesday, 11 December 2007

Our Annual Winter Technician Meeting will be held again this year at the Modern Maturity Center in Dover, Delaware. It will be December 12th from 8 am to 5pm. All technicians, assistants, students, and support staff are welcome!

Alison Gottlieb BS, RVT, VTC(ECC) will be presenting this year. Her topics will include:

Feline Focus

This lecture discusses everything related to the kitties. Lecture covers the range from making them comfortable in the clinic; to caring for them during an emergency. Includes monitoring and specific feline nutrition needs.

Pain Management

A strong focus on recognizing pain as well as the tools to appropriately treat pain. The ethical aspects of pain, multimodal therapies and treating chronic vs. acute pain are covered.

The lecture material is available here. Please note that you must be registered on this site and logged into you account to access this material. If you have any questions about registering or accessing the materials please email us .
